WORKING AT KCI

KCI Technologies, Inc., is a 100% employee-owned engineering, consulting and construction firm serving clients throughout the United States. KCI is recognized as an industry leader, employing cutting-edge technologies, management practices and strategic growth initiatives. The success of the company is attributed to the hard work and technical expertise of dedicated employee owners. Employee ownership fosters an entrepreneurial spirit, encourages technical expertise, and shapes strategic planning. As owners, KCI employees and managers share responsibility for growing the company by providing quality, innovative services to clients.

A GREAT PLACE TO WORK

KCI’s atmosphere is open and relaxed, yet challenging and professional. Employee-owners understand they have a vested interest in the decisions that shape the company’s business plans, benefit and retirement packages, training opportunities, stock valuations and strategic direction. As a company recognized for exceptional commitment to employees, KCI offers a wide variety of benefits, programs and services.

Employees have opportunities to work on award-winning, high-visibility projects, making KCI a firm of choice for technical and administrative professionals.

PROFESSIONAL DEVELOPMENT

KCI is committed to the continuous training and development of employees. There are several courses available for technical and professional development available within the KCI Continuous Learning Academy. KCI sponsors formal mentoring and technical, leadership and safety training programs.

“The internship provided me with experience that I will use in the rest of my career. It created a foundation for me to stand on and put myself out there in this highly competitive field, and I am incredibly thankful for that opportunity.”

—Megan Cullison Previous KCI Intern
WORK HARD, EXPERIENCE MORE, HAVE FUN!

Through the KCI internship program, students have opportunities to develop relationships, work with experts and gain experience that can help in future career choices. With an employee-centric culture and award winning contracts, KCI may be a perfect match for pursuing a career in any of the following fields:

Civil Engineering
Construction and Program Management
Database and Applications Development
Electrical Engineering
Environmental Engineering
Environmental Science
Fire Protection Engineering
Geographic Information Systems
Geotechnical Engineering
Mechanical Engineering
Natural Resources Management and Restoration
Risk Analysis & Emergency Management
Structural Engineering
Surveying
Telecommunications Engineering
Transportation and Traffic Engineering
Water Resources Management

WHAT TO EXPECT

Interns will work under the supervision of a technical manager within one of KCI’s many diverse consulting, engineering, scientific, or design practices to gain exposure to real world projects and daily work tasks. Summer interns will work a 40-hour week, with at least 10 weeks of work required during the period from mid-May to the end of August. Interns will be assigned a dedicated supervisor and mentor, are required to attend planned activities, and should submit mid-summer and end-of-summer status reports. Students gain exposure to real world projects and daily work tasks in a challenging and often fun environment. Experience can include office, field, design, drafting, data analysis and other tasks that prepare candidates for starting a successful career in engineering or associated fields.

For more information, or to apply, please visit the Careers section of the KCI website.

MISSION STATEMENT

KCI’s goal is to prepare students for starting a successful career in one of the many diverse service areas.

PROGRAM OBJECTIVES:

• Receive hands-on work experience in a variety of field and office environments
• Develop knowledge of KCI service, and the engineering consulting industry
• Network with a diverse group of talented individuals
• Build relationships across the company
• Identify and strengthen skills and career interests
• Attain an overview of the opportunities within KCI

The candidates selected as part of the KCI Summer Internship program will be placed at one of KCI’s offices throughout the United States during the summer months. Interns whose permanent address is more than 50 miles from their chosen reporting office are provided a housing. Our interns work hard, and have a great time!

"The diversity of tasks I worked on offered me ample opportunity to challenge myself and grow, yet KCI’s helpful staff was always accessible if I needed any help. During the summer internship for the Natural Resources Practice at KCI, I worked with wonderful people, gained valuable experience in the office and in the field."

— Joseph Broome, Previous KCI Intern
